Profile

Computer scientist with exceptional people skills and fierce passion for life seeking an innovative and engaging developer role. I wish to cultivate my technical ability with a team that aspires to make an impact. Engineering is art, technology is the future.

Education

Colorado School of Mines, Golden CO   B.S. June 2019
  Computer Science

Technical Experience

Dept of Interior - IA - DEMD, Golden, CO (Dev): Active directory, capital planning risk assessment, service manager, installations, network troubleshooting.

Woot Math, Boulder, CO (Intern): Built a single-page web app to support math content upload, digitization, tagging, storage, editing, etc.

My Stack

C++ (OOP/TDD), Mongo/Express/Vue/Node/TypeScript/Docker (Agile/Scrum), Python (Numpy/Pandas/Scikit/Matplotlib), Ruby, Git, bash, SQL, PHP, HTML, CSS, HTTP/TCP/IP, OpenSSL, Postman.

Non-Technical Skills/Attributes

Interpersonal: Leading, listening, networking, speaking, teaching, writing.
Individual: Abstract thought, emotional intelligence, creativity, critical analysis, discretion, honesty, imagination, initiative, resilience, strategy.

Other Interests

Academic: Math, neuroscience, physics, physiology, psychology.
Liberal: Economics, etymology, history, mythology, philosophy.
Athletic: Hiking, martial arts, river rafting, yoga.
Artistic: Astrology, chess, dance, drawing, painting, singing, theatre, writing.
